MMS XML post

Tech-doc V 1.1

Introduction

Clients can use XML to deliver MMS messages to the ClubMessage MMS gateway. Please use the default XML lay-out described below

XML post

Example:

```
<?xml version="1.0" encoding="utf-8" ?>
<MESSAGES>
  <CUSTOMER ID="[CUSTOMER]" />
  <USER LOGIN="[LOGIN]" PASSWORD="[PASSWORD]" />
  <MSG>
    <FROM>[ORIGINATOR]</FROM>
    <TEXT>[TEXT]</TEXT>
    <FILE>[FILE_URL]</FILE>
    <TO OPERATOR="[OPERATOR]">[NUMBER]</TO>
  </MSG>
</MESSAGES>
```

Please note that XML is case sensitive, please do not use 'special characters'. More info: <http://www.w3.org/TR/REC-xml/>.

Variable parameters are between [].

Client specific parameters:

Name	Format	Length	Required	Description
CUSTOMER	Numeric	2-8 decimal	Yes	Unique client ID provided by ClubMessage.
LOGIN	Alphanumeric	1-32 characters	Yes	Login name provided by ClubMessage.
PASSWORD	Alphanumeric	1-32 characters	Yes	Password provided by ClubMessage.

Message specific parameters:

Name	Format	Length	Required	Description
SENDER	Alphanumeric	1-15 characters	Yes	Originator of the message, can be numeric or alphanumeric. If originator is alphanumeric maximum length is 11 characters. If numeric maximum length is 16 characters. Numeric originators (MSISDN's) must start with 00<country code>, e.g. 0031 for The Netherlands.
FILE_URL	Alphanumeric	0-256 characters	Yes	FILE defines the online location of the content files for the MMS message. Eg. "http://www.clubmessage.net/nl/img/cm_logo.gif" Maximum number of files is set to 5. The following file types are supported: Gif / jpg / jpeg Txt Mp3 / Wav / Mid 3gp / 3gpp / mpg / mpeg
NUMBER	Numeric		Yes	MSISDN of recipient. Always start with country code: e.g. 0031 for The Netherlands.
OPERATOR	Numeric	5	No	International network codes. For The Netherlands: KPN: 20408 T-Mobile: 20416 Telfort: 20412 Orange: 20420 Vodafone: 20404 More info: http://www.numberingplans.com/?page=plans&sub=imsinr

Please note:

It is permitted to put more than 1 MSG element and/or more than 1 TO element in 1 single XML post.

HTTP POST XML can be sent to:

<http://mmsgateway.clubmessage.nl/>

Response:

In case of successful submission you will receive the following:

OK

In case an error occurs whilst posting XML, you will receive an ERROR notification including an error description.
